That represents an overall increase of about 900 applications over last year. Projected 2018-19 enrollment for MyChoice Programs is 2,838 students. Through the MyChoice initiative, 156 new students have applied to enter CISD — 67 are incoming kindergarteners. However, 89 are recaptured families with school-age children who live in CISD but do not currently have a student attending CISD schools.

Heard an update on the **CISD Employee Child Development Center**. The CISD Employee Child Development Center opened on Aug. 8, 2017. Shawneequa Blount, center director, gave an update on the first semester of operation and shared initial planning steps for the 2018-19 school year. The center is gearing up for a spring enrollment drive and working on other projects, including collaborating with CTE students to develop an outdoor learning environment for the Child Development Center.

Heard a report on the **21st Century Program**. The 21st Century program is a high quality afterschool experience that provides extended learning opportunities during non-school hours, particularly for students who attend high-poverty and low-performing schools. The program helps students meet state and local standards in core academic subjects, such as reading and math; offers students a broad array of enrichment activities to complement regular academic programs; and offers literacy and other educational services to the families of participating children.

Heard a review and reminder of **CISD Legal Services/Counsel**. There were 15 responses to a request for qualifications from June 2017. All 15 firms were approved for use.

Effective with the 2018-19 school year, the Texas Education Agency will offer a new Staff Development waiver that provides for a maximum of 2,100 total waiver minutes to use for professional development. The waiver is only applicable to the 2018-2019 school year.

Approved **Budget Development Principles and Priorities**. The CISD Budget Development Principles are critical to ensuring the effective and efficient use of resources. The following six tenets will serve as a guide for achieving academic success and fiscal responsibility:

- 1) Conservative approach to revenue generators
- 2) Aggressive approach to expense drivers
- 3) Student/classroom-centric budget management model
- 4) Connect expense drivers to revenue generators
- 5) Protect fund balance for rainy days
- 6) Current students/taxpayers should receive current benefits and investments

In addition to these principles, the district also is developing a list of budget priorities by surveying stakeholders and asking them to prioritize specific items in the areas of: academics, technology, facilities/operations, safety/security/student operations, communications and technology. The results of this survey will be shared with the board at a later date.
